Dear Sir/Madam

**RE: JOB APPLICATION AS A HELPER**

Reference is made to the above heading,

I am a Graduate Social Worker from University of Dar es Salaam (UDSM) with a Bachelor Degree in Social Work.

I would like to apply for the position of a Helper, referring to the job advertisement released. I have good skills and knowledge on the Social Work carrier due to class lectures and Practical Trainings I attended during university studying time and competent enough to work with the community due to my experience in the job, together with the cover letter, I have attached my Curriculum Vitae (CV) for more clarification.

Dear Director, as an extrovert, I am sure there is something to contribute to the company when we work together with other staff members as a team and I am also expecting to learn a lot from you and others to expand my knowledge and skills on this carrier.

I am grateful and thankful for your consideration in advance

Yours faithfully,

SUZAN MOSSES MALAMIA.
