

Curriculum Vitae:

Joseph Mgeta

PERSONAL DETAILS:

First Name: Joseph
Middle Name: Issack
Last Name: Mgeta
Date of Birth: 02 February 1991
Place of Birth: Mwanza
Nationality: Tanzanian
TZ Identity Number:
Gender: Male
Marital Status: Married
Mobile Contact Numbers: +255 767 653 869 or +255 656 453 854
E – Mail Address: josephissack17@gmail.com
Criminal Record: None

LANGUAGES:

Swahili: First Language Read / Write / Speak
English: Second Language Read / Write / Speak

EDUCATIONAL BACKGROUND:

ACADEMIC YEAR	SCHOOLS/COLLEGES	AWARDED	LEVEL
2001-2007	MWENGE P/R SCHOOL	Certificate of Primary School	PSLE
2008-2011	KILOLELI SEC. SCHOOL	Certificate of Secondary School	CSEE
2012-2013	DAR ES SALAAM INSTITUTE OF TECHNOLOGY (DIT)	Basic Technician Certificate in Mechanical Engineering	NTA4
2013-2014	DAR ES SALAAM INSTITUTE OF TECHNOLOGY (DIT)	Technician Certificate in Mechanical Engineering	NTA5
2016-2017	DAR ES SALAAM INSTITUTE OF TECHNOLOGY (DIT)	Ordinary Diploma in Mechanical Engineering	NTA6

ESSENTIAL SKILLS AND ABILITIES:

Computer Knowledge

Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Microsoft Publisher, Mechanical AutoCAD

Operator/Driver of Industrial Machinery

Grader, Dozer, Wheel Loader, Backhoe Excavator, Excavator, Mobile Crane, Dumper Truck, Light Duty Truck

Driving Licence/Courses

Basic motor driving course (Veta) – With driving licence classes A, B, C1, C2, C3, D, E, F and G

Curriculum Vitae:

Joseph Mgeta

INDIVIDUAL STRENGTHS:

- Work independently with minimum supervision
- Hard working and risk taker
- Team worker
- Flexibility as situation demand
- Ensure safety and comply with applicable regulations
- Readiness to learn new technology, and quick learner
- Good oral and written skills
- Creative and innovative

HOBBIES:

- Read Inspirational and Motivational books
- Watch Television
- Playing football, and listening to music

EMPLOYMENT HISTORY AND EXPERIENCE

Organization: Capital mining service Ltd (Cms)
Description: Capital mining service Ltd is a part of a big mining services in mine in Tanzania located in both Barrick gold mining and Geita gold mining.
Period: 11 July 2021 to 20 Jan 2023
Role: Rig mechanical fitter.
Rationale: End of task.

Job Experiences:

- General rebuilding of the CAT Engines and Volvo truck engines.
- Rebuilding of the rotation head.
- Assembling and dismantling of the rod kicker
- Assembling and dismantling of the maker breaker
- Fabrication and installation of the mast.
- Operation of fork lift and telehandler.
- Clamping hoses and piping all hydraulic system.
- Read and draw hydraulic schematic.
- Assembling and dismantling of the gear box.
- Inspection of diamond and RC Rig and truck.
- Daily filling job cards for each task.

Curriculum Vitae:

Joseph Mgeta

Organisation: Movic Engineering Company Ltd, Tanzania
Description: Movic is part of the bigger Restart Project at Barrick's Bulyanhulu Gold Mine in Tanzania.
Period: November 2020 to May 2021 (8 months)
Role: Quality Control and Planner
Rationale: End of project

Job Experience:

- Modification and refurbishment of second-hand gantry structures for conveyor CV10,
- Installation of these gantry structures,
- Fabrication and installation of the following:
 - New day silo structure on the existing and operational paste plant,
 - Two new airplane hangar buildings,
- Compilation of the following:
 - Daily QC and progress reports,
 - Planning reports using MS Projects.

Organisation: Enikon Company Ltd, Tanzania
Description: Enikon is part of the bigger Restart Project at Barrick's Bulyanhulu Gold Mine in Tanzania.
Period: April 2019 to October 2020 (7months)
Role: Boilermaker and Mechanical Fitter
Rationale: End of project

Job Experience:

- Fabrication and installation of the following:
 - Bypass hopper structure,
 - Bypass conveyor structure,
 - Filtration plant conveyor.
 - Bypass chute structure.
 - Process plant pipe line fittings.
 - Installation of new slurry pumps.

Curriculum Vitae:

Joseph Mgeta

Organisation: Yapi Merkezi (SGR) Construction Company Ltd, Tanzania
Description: Construction of standard gauge railway(SGR) 330kms from Morogoro to Dodoma has basically been completed and will eventually replace the existing phase 3 from Dodoma to Isaka.
Period: Aug 2018 to Jul 2019 (1 year)
Role: Maintenance Supervisor
Rationale: End of Contract

Job Experience:

- Maintenance and repair of equipment such as excavator, dozer, wheel loader, backhoe, mobile crane, dumper trucks, generators, and batch plant equipment,
- Daily inspection of earth-moving and crusher plant equipment c/w compilation and submission of a daily report,
- Operating and testing of all earth moving equipment such as excavator, dozer, grader, roller, backhoe, dump truck, and light duty vehicle,
- Welding, fabrication, cutting, and machining activities,
- Removing and replacement of spare parts such as bushes, shafts, hydraulic pipes and valves, final drives, transmissions and engines,
- Repair and diagnoses of earth moving equipment, and other kind of equipment on site,
- Changing and replacing of engine oil, oil filter, fuel filter, hydraulic filter, hydraulic oil, and lubrication of parts of machinery,
- Assembling of hydraulic & pneumatic cylinders, control valves, and reading hydraulic circuit diagrams in order to troubleshoot faulty pneumatic and hydraulic systems,
- Draft engineering drawings of different kind of spare parts, and ordering of these as required,
- Use a computer diagnostic tool for troubleshooting all equipment faults.

Organisation: CATA Mining Company Ltd, Tanzania

Curriculum Vitae:

Joseph Mgeta

Description: Cata mining company limited is a parts large scale gold mine in Tanzania located at Butiama district
Period: Jan 2015 to Dec 2015 (1 year)
Role: Mechanical Fitter
Rationale: End of Contract

Job Experience:

- Daily inspection of plant equipment,
- Diagnose faults and repairs on Telex jaw crusher, cone crusher, screen crusher, conveyor, and ball mill.
- Changing and replacement of gearboxes, conveyor belts, bearings, couplings, and rotors,
- Cleaning and maintenance of fridge plants, fan bearings, pulleys, belts, water pumps, and strainer boxes. Setting pitch of blades, and lining up of shafts in ventilation fans,
- Changing and replacing of conveyor belting and rollers,
- Maintenance and attending to breakdowns on cone crushers, jaw crushers, rollers, pulleys, and shafts,
- Rigging and operating of mobile cranes, lifting equipment, cutting and welding equipment/activities,
- Lathe machine such as turning, facing, threading, taper, turning, boring, grooving, forming, and drilling,
- Installation and maintenance of hydraulic and pneumatic systems, air compressors, hydraulic power packs, and drive units,
- Rebuilding of lubrication pumps both high and low pressures, crimped hydraulic hoses, valves such as control valves, relief valves, flow valves,
- Welding activities, fabrication and erection of plant structures, reading of design and issued-for-construction drawings.
