OBJECTIVE

I am a self-motivated and industrious worker making the best use of my innovative thinking ability, committed to sustaining my competitiveness in whatever tasks undertaken. A Sourcing Management professional offering an uncommon blend of strategic sourcing with 11 years of experience with proven ability in setting strategic framework providing stakeholder support, and overcoming unforeseen circumstances.

For operations to meet organization standards there must be integrated management system in place. I have worked as a system coordinator for Smelter Plant ensuring that the Integrated Management System (IMS) PAS99:2012 is implemented.

I have overall of 15 years in Mining sector that is underground Mining, Open pit Mining, concentrator, and Tailings Leach Plant as support system under Production department, Warehousing department and procurement department.
