Arusha, Tanzania

About Me

Highly creative Cybersecurity Analyst and multi-talented photographer and graphic designer who conceptualizes innovative designs solutions for printing, photo editing, modeling, and social media management. Also, a driving success as a great team manager and cooperative one at large, with a strong sense of urgency to anticipate and respond effectively to needs of senior level executives. A diligent individual with commitment to providing exceptional services.

Experience

Freelancing

Photographer & Graphic Designer

Graphic Design

- Developed visual concepts and designs for websites, logos, advertisements, social media posts, and publications.
- Utilized industry-standard software (Adobe Photoshop, Lightroom, Premiere Pro) to create, edit, and enhance imagery.
- Selected colors, images, typography, and layouts based on brand standards and client requirements.
- Reviewed designs for accuracy, ensuring alignment with client goals and visual best practices.
- Collaborated with marketing and sales teams to deliver designs aligned with project objectives.

Photography

- Set up and operated photographic equipment, adjusting settings for optimal results.
- Edited and retouched images, enhancing quality for print and digital formats.
- Conducted photoshoots in various locations, reproducing and framing photographs as required.
- Managed business aspects, including client outreach, scheduling, and general administration.
