SUMMARY

To leverage my skills in data collection, field monitoring, and community engagement to effectively support project implementation, enhance data accuracy, and contribute to the overall success of field operations and development initiatives.

SKILLS

- Data Analysis
- Strong Professional Relationships
- Ability to create a unified team approach
- Document Preparation
- Written Communication
- Teamwork and Collaboration

EXPERIENCE

**Oct 20
2024 -
Oct 28
2024**

Data Collector

- Collect information on crop cultivation and harvesting schedules to analyze agricultural productivity and trends in the Kibaigwa area.
- Collect data on farmers' access to resources like seeds, fertilizers, and credit facilities to identify challenges and support needs.
- Record data on farmers' crop sales, market access, and pricing to understand income levels and market dynamics impacting local farmers.

**SNV
Netherlands
Development
Organization**

**Sept 8, 2024
- Sept 15,
2024**

Data Collection Enumerator

- Conduct structured surveys with potato farmers to gather data on agricultural practices, yields, income, and production challenges in Njombe District.
- Verify data accuracy by observing field conditions, assessing crop health, farm size, and input use to ensure reliability.
- Maintain data integrity and confidentiality by accurately recording and securely handling farmers' information in line with SNV's data protection guidelines.

**SNV Netherlands
Development
Organization**
Dar es Salaam,
Tanzania
