

ABOUT ME

My primary goal is to maximize profits for the company and minimize losses by competent analysis of combined skills from different career as finance, business administration, insurance cover applications, marketing management, social protection, economics, accounting, and other leadership skills. Equipped with solid background in the finance, social protection and insurance industry, aswell as strong analytical, research, and statistical skills, I am positive that this goal can be achieved. But also, am environmental change that I can work with any company and have ability to learn newthings that I can use in any market. I view myself as a dedicated, Practical and well grounded, stable, optimistic, buoyant, confident, cheerful, a hard worker in nature, ready and committed in work. Ability to work on own motivationand use my working time as learning experience and take every opportunity available to improvemy working skills and knowledge. I am keen to take new challenges, work as a team, Proven and effective communicator to patients and clients and working without supervision with remarkableperformance.
