Professional Summary

Compassionate and adaptable **General Practitioner** with international medical training in China and internship experience at Mnazi Mmoja Hospital, Zanzibar. Skilled in **primary care, outpatient consultations, chronic disease management, preventive health, with hands-on experience in acute and emergency support.** Adept at **patient communication, cross-cultural care, and clinical decision-making** in both high-volume and resource-limited environments. Seeking a **full-time GP position in a private clinic or private hospital** where I can deliver high-quality, patient-centred healthcare.

Experience

Volunteer Doctor

Mnazi Mmoja Hospital
Zanzibar
June 2023 - February 2024

- Conducted triage and stabilization of patients with acute and life-threatening conditions. Contributed to efficient patient flow and improved emergency response in a high-volume ward.
- Gained hands-on exposure to trauma care, obstetric emergencies, and acute medical cases in a high-volume setting.
- Strengthened skills in emergency protocols (**BLS, CPR, wound care, IV line preparation**) and working under pressure in resource-limited conditions.
- Provided emotional support and communication to patients and families during critical situations.

Intern Doctor

Mnazi Mmoja Hospital
Zanzibar
March 2022 - March 2023

- Rotated through **Internal Medicine, Pediatrics, Surgery, and Obstetrics & Gynecology**, managing both inpatient and outpatient cases.
- Managed acute and chronic illnesses including **malaria, asthma, diabetes, hypertension and HIV.**
- Assisted in **emergency and acute care**, including trauma cases and obstetric emergencies.
- Delivered preventive health education, improving patient treatment adherence.
- Gained hands-on experience in a **high-volume, resource-limited hospital environment**, strengthening adaptability and clinical decision-making.

Elective Student

Muhimbili National Hospital
Dar Es Salaam
May 2021 - January 2022

- Assisted in triage and patient flow management in a busy clinical setting during the COVID 19 pandemic.
- Supported outpatient clinics and daily ward activities in a teaching hospital setting.
- Developed teamwork and communication skills in a high-volume clinical environment.

Education

MBBS

Chengde Medical University, Hebei Province, China
2014 - 2020
